Dear Rudder.

I do not feel that I sold Mrs Clemenson
a hell of goods. The Lourdet block was part
of a large collection, and only ~~then~~ ignorance
did I label it "Lyon." There were many
fine items in the lot.

Regarding the Souverain Labels, they were sold
to Mrs Clemenson during her visit here at a
time when I thought that only the 10c "debutants"
you. Others will come, have no fear. And do
not go and pay over \$10.00 for any of these "Carnet
Porte-Timbre". Remember that they are only curiosities,
and I shudder at the thought that someone paid
\$29.00 at auction for one of them, and only 32.00 for the
lot of 30, 10d type II.

Many accidents or unexpected happenings
I shall see you Tuesday Sept. 10th. Best I wish
for the publication of your book. What is it about?
Will talk about other things when I see you.

Many

Raoul

Please, write your address. I'll write you later. My bookkeeping
system is such, that I have to look for one hour to find it.
